

SOLLICH

NORTH AMERICA

Knobel Alpha Compact Depositor

October 12, 2006

Sollich North America will be showing the **Knobel Alpha Compact 9/18** at the Process Expo / Pack Expo (www.fpsa.org) in Chicago this fall. This one-shot chocolate depositing machine can be viewed on the Sollich North America booth #6632 at the Process Expo.

The well proven Knobel Alpha Compact is the perfect tool for artisan production of filled and solid chocolates and bars. The machine is servo driven with a cantilever design over the mould indexing conveyor, for easy handling and cleaning. The Knobel Alpha 9/18 is capable of depositing up to 9 cavities per stroke in one-shot (filling) mode or 18 cavities per stroke in solid deposit mode. Production capacities of up to 60 strokes per minute are possible.
